why choose Spirit?

live carefree.

Any time you spend cleaning and scrubbing is time you don't get to spend having fun with your family. That's why we've made our floors **child-proof and pet-proof**. After all: accidents are bound to happen, especially with children and animals around. Muddy paws, a knocked-over glass or crushed food? No problem at all – our Spirit collection is very **easy to maintain**.

stay true to yourself.

Be yourself in every room and every corner of your home. Each click plank of your Spirit floor has an acoustic underlay. And thanks to its innovative integrated underlay, the click-comfort planks and tiles **minimise the sound** of people walking across the floor **by 20 decibels**. This is what a carefree, stress-free life looks (and sounds) like.

*your floor retains
an even surface at all times*

all about stability.

Our Spirit floors suit homes located in any geographical area: from the sunny and exotic south to the cool, chilly north, your floor will retain its stability throughout despite fluctuations in temperature. Even in humid rooms or **close to large windows** with direct sunlight pouring in, you'll have no trouble installing our click comfort floor or the glue-down. The innovative technology and aftercare of the planks and tiles ensure that your floor retains **an even surface at all times**, even after repeated heating and cooling. This makes Spirit particularly suitable in conjunction with floor heating.

SPRIT PRO - CLICK COMFORT 55 - COUNTRY BROWN

additional layer.

Spirit's elegant design is combined with a limited thickness. Want to remove your existing floor while remodelling your home? No need – you simply install Spirit on top of it, saving you the trouble of breakage, dust, and lots of scrubbing and cleaning afterwards. Tiles, wood, or concrete? **Spirit integrates smoothly with any type of existing floor** – even when there are minor differences in height – and does so in record time.

Spirit integrates smoothly with any type of existing floor

everything you need right nearby.

Whether you choose a floor that clicks into place virtually automatically or glue-down installation that keeps it all perfectly together: our Spirit floors ensure a quick, efficient and **dust-free job**. The result is an attractive interior overnight.

easy install.

Spirit is available in click, click comfort and glue-down

instant makeover.

Spirit provides fast and easy installation. **Install your floor in no time at all**, thanks to the convenient click system or the self-adhesive underlay if you opt for glue-down installation. Alternatively, you can glue the planks or tiles directly onto your existing floor. Your floor serves as your home's centrepiece – it is literally and figuratively the foundation of every room in your home. Need an instant makeover? Choose a new colour, an original new design or a warm, natural touch underneath your feet. Spirit is right at your service!

choose your comfort.

Spirit is available in click, click comfort and glue-down versions. The choice is yours. **Click comfort** always includes **an integrated underlay**. Now that's what we call a win-win! Spirit glue-down attaches to a FastTec self-adhesive underlay or can be glued directly onto your existing floor. Use FastTec to remove your vinyl floor at a later stage if desired, without causing damage to your existing floor. For the Spirit Home 30 Click collection, we recommend that you install a DreamTec underlay before installing the planks.

SPIRIT PRO - CLICK COMFORT 55 - CEMENT LIGHT GREY

100% waterproof Spirit floor

Our 100% waterproof Spirit floor is **indestructible and retains its shape.** You can take a relaxing hot bath without worrying about spilling water onto your floor. Your kids can even take off their soaked mittens inside the house in winter without a problem. A Spirit floor can even be installed in your cellar, as it's perfectly at home even in damp spaces. Your new floor will take it like a champ... and that's a promise! So meet your new solid floor which will give you **long-term user comfort.** For an elegant home or successful business: instant and long term.

100% phthalate- free.

Better for you, better for the environment. Spirit is a 100% phthalate-free floor that outperforms the European standard to make a strong statement without compromise. Phthalates are chemical compounds commonly used in the manufacture of vinyl floors. So we've made sure that with our Spirit floors **no harmful substances are released**. We do this not because we need to do it, but because we believe it's important. Our **A+ certificate** speaks for itself.

add colour to your life.

what's
your favourite
look & feel?

colour outside the lines.

Flaunt your colourful style and your personality through your home. **Redesign your space by choosing the right colour tiles or planks.** Use the colour effects strategically and design your home to suit your style. A light floor will make your room appear larger, while dark colours enhance the atmosphere.

Choosing the right colours for your floor also determines the mood in your home. Opt for the bright effect of a pale floor – or are you ready for the intensity of black tiles or planks? By creating a sharp contrast between your decor and your floor, you can really get the most out of your style options. If you want to go for a more luxurious look, you're sure to find the grey shade you need in the Spirit collection.

think BIG!

Spirit XL allows you to create your dream home, adding volume to create that extra-appealing look. **The elongated planks (1830 x 228 mm) make your space appear larger** and add a luxury touch, because we believe your home deserves only the very best.

unique tile size.

If you're going for a tiled look, you get to benefit from our unique tile size. Tiles measuring **600 by 900 millimetres** will give your home a timeless look and feel. The high-quality finishing assures years of domestic and commercial comfort – comfort in an extra-large package.

flaunt your creativity.

mix and match to your heart's content.

Why choose and lose when you can combine the best of both worlds? Spirit allows you to blend your tiles seamlessly into planks, and vice versa – even within a single space.

Create a unique interplay of lines using a variety of surfaces and colours. The glue-down version allows you to mix and match as much as you like. If you're selecting from the Pro collection, you can benefit from click planks with the same thickness as click tiles. Simply watch it all click into place!

exciting patterns.

Opting for glue-down installation and looking for a special effect? Go for a **herringbone motif!** It was all the rage years ago, and now this winning pattern is making a comeback. Stylish herringbone adds a sense of movement and freshness to any home. Use a warm wood colour to give you a 10 for atmosphere and a warm, welcoming mood.

just like real wood.

Love nothing more than a good challenge? Well, we challenge you to tell apart a Spirit floor and a genuine hardwood floor. Spirit blends the authentic look and feel of natural materials with the ease of use and solidity of a vinyl floor. That's why our Pro and XL collections have their own real wood structures. **The decors and structures are perfectly in sync with each other.** You will feel each visible grain in your floor, giving your home the authenticity you're looking for.

finishing touch.

Fashion lovers know better than anyone that accessorising is key, and your floor is no exception! If you use matching skirtings and profiles in aluminium or the identical design for your planks or tiles, every corner of your floor will be good to go.

enjoy the silence.

Spirit allows you to maintain silence and serenity in your home. The integrated underlay absorbs bumps and other imperfections from your sub-floor while at the same time **reducing impact sound by 20 decibels.** Even if you're dancing around your living-room floor to your favourite tune on your new stilettos, or if you happen to break a plate while doing the dishes.

easy installation.

Installing your Spirit floor will give you instant satisfaction, thanks to the **ease of use and speed of installation**. You can install your planks or tiles in just 4 steps:

- 01.** Allow the planks or tiles to adjust to the environment **for 48 hours**.
- 02.** Clean the floor. Install the appropriate **underlay** as necessary:
DreamTec for click planks and FastTec for glue-down installation.
Click comfort is fitted with an integrated underlay.
- 03. Install the actual floor.** The installation method depends on the locking system (2G or 5G) or the floor can be glued.
- 04.** Finish your floor with **skirtings** and **profiles** for the best results.

the perfect picture.

everything you need for a fast and easy installation.

If you've got the right tools, you can install a Spirit floor in no time at all. Saying you hardly need any tools is an understatement, really. If you're opting for a glue-down installation, you should glue the tiles directly onto your existing floor. If you are installing a click floor without an integrated underlay, the **DreamTec underlay** is the perfect option for you. It's easy to fold it out and cut it to size – and you're good to go.

a fluid whole.

A seamless transition between materials, a detailed finishing of angles and edges or discreetly eliminating any differences in height: the **Spirit finishing profiles** make the difference between a job half done and a job well done. Looking to add a little sheen? Surprise people with aluminium profiles in bronze, champagne or silver shades. The T-profile is available in the same colours and designs as the floor itself. This is the simple success formula for a nod to luxury in your home.

For a genuine finishing touch to your room, **skirtings** are your friend. Did you know that nothing could be easier? You can glue them into place or use the convenient clips to attach them to the wall. The design perfectly matches the style and colours of your planks or tiles. Alternatively, you can choose paintable skirtings to match your walls. The result? A sleek finishing that makes all the difference.

easy maintenance.

Spirit is designed to last and last... including resistance to roughhousing, boisterous furry friends or practising dance steps around the room. "Low maintenance" is Spirit's middle name. The stain- and moisture-resistant coating makes cleaning fast and easy.

You can further extend the life of your floor by using the right products. A strong PU protector adds extra protection to your top vinyl layer, while the cleaner keeps your floor impeccable and hygienic at all times, both for first-time and regular use. **You can quickly clean your floor** without the need to rinse afterwards, leaving more time to focus on the fun stuff.
