vertisolwall. Woven Vinyl Wall Covering

vertisolwall is the perfect combination between functionality and design. The excellent results obtained with the highest tests have converted fitnice wall into one of the most highly demanded wall covering solutions, for both public spaces and private settings.

The tones in the **Advanced Fabrics Coordinated** series can be found in all **vertisol**'s textile solutions for architecture.

vertisolwall is textile wall solution with excellent abrasion resistance and great durability.

vertisolwall has been tested by independent laboratories with satisfactory results in all cases. It complies with the most stringent fire regulations being Bs2d0.

vertisolwall can be cleaned easily, even by the aplication of sodium hypochlorite and other detergents.

vertisolwall is product free of phthalates, a component used in certain PVC products and potentially harmful to humans.

Wide range of colors and textures through our three collections. Each collection has own identity and a color palette specially designed to create projects os all kinds.

* More **vertisol** wall colors available. Please contact our sales department.

** The colors in the **vertisol**wall Collection are compatible with vertisolacoustic.

All specifications are based on average values and may deviate. The values are for guidance and are not contractual subject to technical modifications. The straight weft is not an inherent condition. Weaving technology features color effects because of light, making it an exclusive and unique product. Also bicolour yarns create a randomly harmonious effect. These effects are no ground for claims.
